### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the drawings, amendments have been made to label the elements as shown in the attachment. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the elements in the figures should be labeled with words indicating the type of element along with numbers

### **DETAILED ACTION**

#### ***Response to Arguments***

1. Applicant's arguments filed 12/22/2004 have been fully considered and they are persuasive.

#### ***Response to Amendment***

#### ***Oath/Declaration***

#### ***(Notice of informal patent application)***

2. Receipt is acknowledged of papers filed under 35 U.S.C. 119 (a)-(d). Applicant has not complied with the requirements of 37 CFR 1.63(c), since the oath, declaration or application data sheet does not acknowledge the filing of any foreign application on 10/29/1999. Instead applicant seems to have made a typographical error and wrote 10/26/1999. A new oath,

declaration or application data sheet is required in the body of which the present application should be identified by application number and filing date.

***Allowable Subject Matter***

3. Claims 1-20 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

The art of record does not suggest the respective claim combinations together and nor would the respective claim combinations be obvious with the amendments to the claims: measuring bit error rate characteristic and pseudorandom pattern included in the demodulated data.
